EDUCATING FOR CHANGE CURRICULUM CONFERENCE

2/24/2018 @ Wydown Middle School

'BUILDING COUNTER-NARRATIVES FOR RADICAL HEALING & HOPE'

Due to escalating incidents of violence, discrimination, and misrepresentations of truth, many of our children are in need of radical healing and hope. This year's Educating for Change Conference seeks to hone our great power as educators to build counter-narratives which disrupt misrepresentations that give voice to alternative facts. This project is historically urgent. Join us in our efforts to use counter-narratives as a tool for fostering hope and healing so that we may resist traditional domination, empower marginalized communities, and move toward sustainable solutions to today's crises.
